What to expect

Further details

Snow showers will affect northern Scotland overnight Wednesday evening into Thursday morning. Accumulations of up to 2cm are expected quite widely across the warning area, with up to 5cm possible on higher ground particularly of the northwest Highlands. Icy surfaces may be a hazard where sleet or snow showers fall on to frozen surfaces.

What should I do?

Snowy, wintry weather can cause delays and make driving conditions dangerous. Keep yourself and others safe by planning your route, giving yourself extra time for your journey.
